Superhero Cape

Beginner

SOME SEWING EXPERIENCE NECESSARY

Time to complete: 45 minutes

Superhero Cape

You'll need:

- 1 yd x 60" wide Oly*Fun™ material
- Matching thread
- Fabric scraps
- Embellishments (optional)
- Rotary cutter
- Cutting mat
- Sewing machine
- Pins

Note: Pattern makes two capes

- 1) Fold fabric in half width-wise, then again width-wise. Place on table with folded edge facing towards you. For ties: Measure 2" in from the left hand side and cut. Repeat. Set aside.
- 2) On the right side, measure 7" up from the bottom fold and mark. Place ruler from the 7" mark diagonally to the upper left hand corner of fabric and mark. Cut along the diagonal line making two cape shapes. Note: you can scallop or fringe cut the bottom of the cape for a different design or to shorten the length.
- 3) Place one tie strip horizontally on the table and center the top of the cape shape over the tie strip. Fold the entire tie strip in half length wise and pin, sandwiching the cape. Sew strip together using $\frac{1}{4}$ " seam allowance. Repeat for other cape.
- 4) Add symbols or embellish as desired. We used a bright yellow star cut from another piece of Oly*Fun material.
